

Family of Patented Products

The BucketScoop is made from rigid aluminum with a polyethylene handle for a combination of easy clean-up and rugged durability. You won't need to replace this tool from gouged edges or rusty metal!

In fact, the only likely reasons you will need replacements are if you lose it, or decide you need another and another...

- Rigid aluminum construction
- Not affected by solvents
- Will not rust

Clean Hands!

A great benefit of the BucketScoop, is accomplished with the unique Monkey Thumbs™.

The Monkey Thumbs™ allow the scoop to hang inside the bucket, on the outer rim. AND it can be used to lift the bucket by its handle!

- We have a scoop for every bucket!
- The BucketScoop is now available in 4 sizes from Monster to Mini!

- Stores on edge of bucket with Monkey Thumbs™
- Designed to keep your hands out of the ink

- The MiniScoop is great for use with pint, quart and gallon containers.
